Test Re-Grading

The **deadline** for re-grading a test is **two weeks after the tests were sent out by email**. Re-grading requests after that date will not be accepted, so we encourage you to review your tests promptly.

When you receive the link to your paper, compare your answers with the solutions online.

If you believe an error was made in the grading,

- write a **brief** email explaining your specific concern,
- include your full name, NetID and student number in the email, and
- send it to your instructor, with "Test Regrading" in the subject line.

You will receive a reply by email.
