MATH339 Assignments and Policies

There will be three assignments during the course of this semester, the due dates are available on the course outline.

Policies:

• Assignments may be worked on in groups of up to four people. Only one assignment per group needs to be handed in. It is fine to work in larger groups, but only four names per assignment are allowed.

• Assignments must have a title, the date, the names and student numbers of all the students in the group. There is no retroactive additions of names allowed, so be sure everyone who worked on the assignment is listed on it with their name and student number when it is handed in.

• Everyone gets the same mark for the assignment, no exceptions.

• Assignments that are not legible will be penalized. Poor grammar and spelling may also be penalized.

• Assignments may be hand-written or typed, but a physical copy must be submitted to the instructor before the due date.

• Students that pick up their assignments within one week of the assignments being graded will receive one bonus mark on that assignment.

• Late assignments will not be accepted. If there are extenuating circumstances they must be discussed with the instructor before the due date, not afterwards.

• If you do not pass at least one midterm, your assignment grade will be counted as zero towards your final grade.

The breakdown of the assignments are as follows:

<table>
<thead>
<tr>
<th>Assignment</th>
<th>Questions to be answered</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Chapter 1: Q 1-6, Chapter 2: Q 1-5</td>
</tr>
<tr>
<td>2</td>
<td>Chapter 3: Q 1-6, Chapter 4: Q 1-5</td>
</tr>
<tr>
<td>3</td>
<td>Chapter 5: Q 1-8, Chapter 6: Q 1-3, Chapter 7: Q 1-3</td>
</tr>
</tbody>
</table>
The assignment grades will be established accordingly:

- Due to the size of the class, a subset of the questions on each assignment will be chosen to be graded. However, the information of which questions get graded will not be available to the class until all of the assignments have been graded.

- Uncompleted questions will not be penalized unless they are amongst the set of questions to be graded.

- The assignment mark will be calculated only using graded questions.

- Regrades are solely the province of the instructor and are only to be done during office hours. Students must be able to justify why they think they deserve a regrade, simply asking for it will be answered with a resounding negative.
